Holly,

The only briefings that I am aware of are internal. We have had two thus far. The first was for the PFAS coordinating committee and the second was for the Regions. The one I attached to the meeting invite was for the Regions. There is nothing scheduled outside of EPA at this time.

You had a .ppt briefing for the program offices attached to today's meeting invitation. It had today's date on it, but I know that it was likely set to display the current date whenever you open it. Are any briefings outside of ORD coming up soon (other than our regular meetings)?

Thank you,
Holly

Since I can't be at this meeting, could you please tell me when you expect to start doing these briefings? I am concerned that the QAPP is not even close to including an adequate amount of detail.

Thank you,
